

GW Wireless Network Services
“EDUROAM” USER GUIDE

➤ **What is eduroam?**

Eduroam is a secure, wireless service that allows students, faculty and staff to access the internet with their GW credentials across campus and when they visit other eduroam participated universities.

➤ **How do I connect to eduroam?**

Android:

1. Enable the wireless service on your device
2. Select the SSID “eduroam”
3. Select PEAP for the EAP method and MSCHAPV2 for phase 2 authentication
4. Enter your full university e-mail address (NetID@gwu.edu) for your identity
5. Enter the password that corresponds with your e-mail address
6. Select Connect

iPhone and iPad:

1. Enable the wireless service on your device
2. Select the SSID “eduroam”
3. Enter your full university e-mail address (NetID@gwu.edu) for your username
4. Enter the password that corresponds with your e-mail address
5. Accept the certificate from AddTrust, InCommon or rad****.es.gwu.edu

Windows and Mac:

1. Select “eduroam” from your available SSID list
2. Enter your full university e-mail address (NetID@gwu.edu) for your username
3. Enter the password that corresponds with your e-mail address
4. Select Connect

➤ **Where can I use eduroam?**

Foggy Bottom Campus, Mount Vernon Campus, Virginia Campus.

** You can also enjoy Free Wi-Fi in some stores (e.g. Starbucks, Borders).
